INDEX.

VOL. CVII.

Illustrations.

Names.

A

ACER Portable Dynamometer, 273
Aëro and Motor Boat Exhibition, 313, 336
Allen's Pumps and Turbines for Circulating Condensing Water, 506, 507 (Correction, 566)
Allen's Small Lighting and Pumping Sets, 272
Alley's Two-stage Steam-driven Air Compressor, 524 (*Two-page Supplement, May 21st*, 1909)
American Blast Furnace Plants, 34, 57
American Locomotive Company's Mallet Compound Engine for Eastern Railway of France, 294, 299 (*Two-page Supplement, March 19th*, 1909)
American Salvage Steamer Favourite, 136
Anderton Boat Lift, Reconstruction (*Supplement January 1st*, 1909)
Appleby's 100-Ton Crane, 586
Appleby's Tower Cranes and Temperley Transporters, 431
Archdale's Twist Drill Testing Machine, 510
Argentine Gunboat Parana, 665
Arica-La Paz Railway, 381, 444, 450
Austrian 76 mm. Gun with Goerz Panorama Sight, 652, 660
Austro-Hungarian Submarine, 43
Avery's 300-Ton Testing Machine at Birmingham University, 532, 533
Avonmouth, Royal Edward Dock, 3 (*Supplement, January 1st*, 1909)
Axholme, Stern Wheel Steamer for the Niger, 616

B

BAILEY, W. H., "See-saw" Steam Trap and Reducing Valve, 561
Baldwin Mallet Compound Locomotive, 522
Baltimore, Harbour Works at, 104
Barrow Hematite Iron and Steel Company, Gas Blowing Engines, 134, 135 (*Two-page Supplement, February 5th*, 1909)
Bellerophon, H.M. Battleship (*Supplement, January 1st*, 1909)
Ben-my-Chree, Lifting Arrangements, 364
Bennis' Coal Elevator with Rotary Feed, 564
Berry's 600-Ton Flanging Press, 173
Bethlehem Company's 3in. Gun, 652, 660
Bleriot Monoplane, 15 (*Supplement, January 1st*, 1909)
Bolmer's Balanced Locomotives, 236 (Correction, 319)
Bonnet-Labranche Aëroplane, 15 (*Supplement, January 1st*, 1909)
Borsig's Hydraulic Flanging Press, 21
Brazilian Battleship Minas Geraes (*Supplement, January 1st*, 1909)
Brazilian Battleship Sao Paulo, 430
Brooke Marine Motor, 336
Broom and Wade's Heavy Oil Motor Wagon, 93
Broom and Wade's Military Tractor, 248
Brown, Boveri's Electrical Power Plant at a Colliery, 502, 508 (Correction, 611)
Brown's Worm Gear Drive at Epsom Waterworks, 118
Bryce's Coupling for Copper Pipes, 169
Burne, E. L., on Wind Power, 286
Butler's Bar-cutting Machine, 665
Butterfield's Sheet Iron Tank Works at Shipley, 290 (Correction, 316)

C

CAMBRIDGE Scientific Instrument Company's Burner, 640
Camerton and Limpley Stoke Railway, 131
Cayo Piedra, Cuban Dipper Dredger, 612
Central Argentine Railway Locomotive, 601
Chaplin's Large Steam Wharf Crane, 606
Chemin de Fer du Nord Six-coupled Locomotive, 587
Chemin de Fer de l'Ouest Locomotive, 14 (*Supplement, January 1st*, 1909)
Child's Windmill for Driving Dynamo, 323
Cochrane Aëroplane, 315
Coil Clutch Company's Clutch, 250, 251
Cologne Gasworks Conveyor Plant, 387, 396
Colombia, Dorada Railway Extension in, 264, 268
Colorado River Breach and Closure, 359
Condorcet, Diderot, and Voltaire, French Battleships, 438
"Cop" Plate-lifting Clamp, 223
Cowans' 30-Ton Electric Travelling Jib Crane, 276, 277
Cowans' 150-Ton Floating Crane for Japan, 374
Craster Hall, Longitudinally-framed Ship, 234, 242 (*Two-page Supplement, March 5th*, 1909)
Crossley's Gas Engine and Producer Plant at Winnipeg, 656
Cuban Dredger Cayo Piedra, 612
Cunliffe's Large Screw-cutting Lathe, 484, 485

D

DECATUR Bridge Company's Turntable Planer, 666
Deport Gear for Guns, 651
Detroit River Tunnel, 180
Detroit Electric Locomotive, 183
Divi Irrigation Pumping Project, Madras, a Venturi Meter (*Supplement, January 1st*, 1909)
Dorada Railway, Extension in Colombia, 264, 268
Duisburger Company's Electro-Hydraulic Ladle Carriage, 523

E

EASTERN Railway of France, Mallet Compound Locomotive, 294, 299 (*Two-page Supplement, March 19th*, 1909)
Ehrhardt Ammunition Wagon, 652
Ekenberg Wet-carbonising Process for Peat, 549
Elgar, Dr. Francis, Portrait, 83
Erith Works of Vickers, Sons and Maxim, 573 (*Two-page Supplement, June 4th*, 1909)
Esnault-Pelterie Flying Machine, 15 (*Supplement, January 1st*, 1909)
Esneh Barrage, 79 (Correction, 146) (*Two-page Supplement, January 22nd*, 1909)

F

FARMAN Aëroplane, 15 (*Supplement, January 1st*, 1909)
Favourite, American Salvage Steamer, 136
Fielding and Platt's Hydraulic Pumping Plant for Japan, 190
Lampless Oil Engines, 653
Suction Gas Engine, 653
Fleming and Ferguson's Bucket Dredger, 323
Foster's Light Steam Tractor, 654
French Dreadnoughts, 438
Submarine Bells, 4
Submarine Salvage Boat Vulcain, 598
Frye's Platelayer's Ratchet Spanner, 324

G

G.B. SURFACE Contact Electric Traction, 68, 85
Garvie's Steam Pile Driver, 603
Genoa and Milan, Proposed New Tunnel, 160
Glasgow South Side Sewage Disposal Works, 138, 142
Glenfield and Kennedy's Pumps at Winnipeg, 656
Glover, W. T., Cab's Suspender, 482
Gobron-Brillié Aëroplane Engine, 315
Goole Shipbuilding and Repairing Company's Pontoon, 561
Great Central Tank Locomotive, 14 (*Supplement, January 1st*, 1909)
Great Northern Railway of America Electric Tunnel Locomotive, 69
Great Western Locomotive "Great Bear," 14 (*Supplement, January 1st*, 1909)
Grossmith's Transporter for Mining Works, 638
Gwynne's Combined Tractor and Irrigating Machine, 590

H

HALL, B. J., Enlarging and Reducing Scale, 560
Hall and Kay's Dust Removers in Cotton Mills, 116
Harland and Wolff, Typical Vessels Built by, 626 (*Four-page Supplement, June 18th* 1909)
Harland and Wolff's Works at Belfast, 626 (*Sixteen-page Special Supplement, June 18th*, 1909)
Havre, Florida Lock under Construction, 3 (*Supplement, January 1st*, 1909)
Henderson's Long-span Cableway at Grays, 168, 169
Heywood's 70-Ton Motor-driven Traverser, 42
Heywood's Overhead Travelling Crane, 458
Holbrook's Chasing Lathe, 251
Honor Oak Reservoir, 472, 476

I

INDOMITABLE, H.M. Armoured Cruiser (*Supplement, January 1st*, 1909)
Italian State Railways Ten-wheels Coupled Compound Locomotive, 14 (*Supplement, January 1st*, 1909)

J

JACOBS' Machine for Drilling Rails and Driving Screw Spikes, 618

K

KAYE'S Cement Works at Southam, 8, 12, 28, 38
Kearns' Attachment for Drilling Electric Motors, 173; Shaping Machine, 454
Kendall's Plano-milling Machine, 68
Kenter Weldless Chain Shackle, 359
Kingsbury and Water Orton Railway, 480, 481
King's Dock, Swansea (*Supplement, January 1st*, 1909)

L

LA COUR'S Speed Regulator for Wind-driven Dynamos, 303
Lamplough's Orthopter and Biplane, 314
Lancaster and Tonge, Packing and Piston Ring, 190, 480
Laurentic, White Star Canadian Liner, 426
Leigh's Copper Pipe Joint, 248
Leviathan, Sand Pump Dredger, 344, 352, 353
Lilleshall Company's Gas-blowing Engines at Barrow, 134 135 (*Two-page Supplement, February 5th*, 1909)
London, Brighton and South Coast Electric Train, 141, 162, 164
Pullman Coach, 31, 32
Tank Locomotive, 10, 15 (Correction, 62) (*Supplement, January 1st*, 1909)
Electric Firm's Arc Lamp Lowering Gear, 144
and North-Western Steamship Rathmore, 55 (*Two Two-page Supplements, January 15th*, 1909)

M

McNEIL'S Eleven-Roller Sugar Cane Mill and Dumbturner, 192, 196
Marion's Chain-making Plant at Borsig's Works, 312
Marshall's Copper Smelting Furnace Charge Calculator, 44
Mavor and Coulson's "Spinner" Induction Motor, 367
Mediterranean, Torpedo Battery in the, 412
Méker Burner, Cambridge Scientific Instrument Company, 640
Mercédès Marine Motor, 336
Midgley's Angle Iron Bending Machine, 120
Midland Railway's New Line—*see* Kingsbury
Milton, Weston-super-Mare Sewage Pumping Plant, 188
Minas Geraes, Brazilian Battleship (*Supplement, January 1st*, 1909)
Minnitt's Railway Carriage Ventilator, 169
"Mongue" Two-speed Device for Spinning Frames, 197
Montreal Elevated Reinforced Concrete Coal Store, 604
Morgan Crucible Furnaces, 36
Mork Patent Pulley Block Company's Plate-lifting Clamp, 223
Muir's 10½in. Turbine Rotor Lathe, 498
Murphy Friction Clutch, 117

N

NEW Lowca Engineering Company's Engine, 664
New Sultan Engineering Company's Nut-locking Device, 560
North-Eastern Railway Locomotive, Four Wheels Coupled Express, 420, 474 (*Two-page Supplement, April 23rd*, 1909), (*Two-page Supplement, May 7th*, 1909)
Queen's Saloon, 318, 322
Snow Plough, 302
Nottingham, Midland Railway Station, 446

O

ORIENT Liner Orsova, 545, 556
Osborn's Spark Arrester for Cupolas, 278

P

P.L.M. Suburban and Riviera Tank Engine, 587
Panama Canal, The Culebra Cut, 4 (*Supplement, January 1st*, 1909)
"Panflex" Spring Wheel, Parsons, 404
Parana, Argentine Gunboat, 665
Paris Experimental Tank, 340, 341
Parsons' 7 Horse-power Lighting Set, 336
Parsons' Spring Wheel, 404
Paso de Martin Garcia, Twin-screw Steamer, 528, 536
Pegu-Moulmein Railway and the Sittang River, 578, 582, 630, 632, 634
Penrikyber Colliery Plant, W. H. Allen, 506, 507
Pilkington's Double Pneumatic Hammer, 172
Pilkington's Pneumatic Converted Hammer, 560
Pioneer, 40ft. Gas-driven Cabin Cruiser, 376
Pipe Aëroplane Engine, 70 Horse-power, 316
Price's 2½ Horse-power Air-cooled Paraffin Engine, 427

Q

QUIXO Boiler-tube End and Plate Cleaner, Capt. F. S. Pett, 474

R

RANSOME'S Guard for Wood-moulding Machine, 613
Ransome's 30-Ton Steam Breakdown Crane, 118
Rathmore, London and North-Western Steamship, 55 (*Two Two-page Supplements, January 15th*, 1909)
Reavell's Air Compressor and Gas Engine, 46
Reavell's Combined Paraffin Oil Engine and Dynamo, 348
Reddaway's Murphy Friction Clutch, 117
Renault's Eight-cylinder 50 H.P. Air-cooled Aëroplane Engine, 315
Robert-Esnault Peterie Monoplane, 314
Robinson's Two-spindle Saw Bench, 196
Roechling-Rodenhauser and other Electric Furnaces, 617, 640
Rorqual, Screw Trawler, Eltringham, 298
Royal Agricultural Society's Show, 653
Royce's Monorail Crane, 299
Royce's Motor-driven Transporter for Buenos Aires, 580
Ruhr Valley Water Storage, 117
Rurik, Russian Armoured Cruiser (*Supplement, January 1st*, 1909)
Ruston's Compound Semi-portable Engine and Superheater, 366, 370, 655

S

SALEM, United States Scout Cruiser, Turbines Repair, 616
Salmond's All-gear Lathe Head, 248, 249
Sao Paulo, Brazilian Battleship, 430
Schäffer's Hydraulic Weighing Machine, 427
Schneider's 75 mm Gun, 652, 660
Sharpness Docks, 60, 64
Shipley, Butterfield's Sheet Iron Tank Works at, 290, (Correction, 316)
Siegener Maschinenbau A.G., Gas Engine-driven Accumulator Pumps, 88, 92
Simpson, Strickland's Oil-fired Launches, 146
Sirocco Mine Fan, Testing, 430
Sittang River Bridge, 578, 582, 630, 632, 634
South America, Shallow-draught Steamer for, Thornycroft, 528, 536
South-Eastern and Chatham Locomotive, 14 (*Supplement, January 1st* 1909)
South London Line Electrification—*see* London, Brighton, and South Coast
Southam Cement Works, Kaye and Co., 8, 12, 28, 38
Southend Electricity Works and Evaporative Condenser Plant, 419, 422
Southern Belle Express Coach, 31, 32
Southern Pacific Railway Mallet Compound Locomotive, 552
Spicer's Lighting Set, 336
"Spinner" Induction Motor, Mavor and Coulson, 367
"Stacey" Automatic Grain Weighing Machine, 94
Stanley, W. F., Slide Rule, 668
Steel Wings Turbine Company's Wind Turbines, 639
Stewart's Steam Tractor, 246
Swift, H.M. Torpedo-boat Destroyer, 222, 223

T

TAYLOR'S, and Others', Early Steam Cranes and Hoists, 551
Teutonic, White Star Liner, 626
Thornycroft's Military Tractor, 246
Thornycroft's Shallow-draught Steamer, Paso de Martin Garcia, 528, 536
Tomlinson's 40-Roller Pile Raising Machine, 274
Toronto University, Engineering at, 103, 112, 129
Toronto Waterworks Tunnel, 84

200620

U

UNIFLUX Condenser, Weir's Marine Type, 144
Union Electric Company's Improvement in Arc Lamp, 172
United States Scout Cruiser Salem, Turbines Repair, 616
Ural, The, Charcoal Blast Furnace Practice in, Professor M. A. Pavloff, 493

V

VANGUARD, H.M. Battleship, 218, 224, 342 (*Two-page Supplement, April 2nd*, 1909)
Veithardt's Square-plaited Rope Drive for Wire Mills, 46 (Correction, 75)
Vernon, P. V., on Milling Machine Tests, 284
Vickers' Adjustable Reamers, 223
Vickers-Maxim 75 mm. Mountain Gun, 652, 660
Vickers, Sons and Maxim's Works at Erith, 573 (*Two-page Supplement, June 4th*, 1909)
Voisin Aëroplane, 15 (*Supplement, January 1st*, 1909)
Vulcain, French Submarine Salvage Boat, 598

W

WEAR, Road and Railway Bridge over, 588, 602, 608
Webster and Bennett's Duplex Drilling Machine and Duplex Horizontal Lathe, 400, 401, 402
Weir's Marine Type Uniflux Condenser, 144
White Star Liner Teutonic, 626
Wilmslow and Levenshulme Railway, 108
Wilson's Locomotive Gantry Jib Crane, 44
Winnipeg High-pressure Fire Service, 656
Worthington's Three-stage Turbine Pump, 170
Wright Aëroplane, 15 (*Supplement, January 1st*, 1909)

Subjects.

A

AEROPLANES and Aëroplane Engines at Olympia, 318, 316
Aëroplanes, Various Typical, 15 (*Supplement, January 1st*, 1909)
Air Compressor, Alley and Maclellan, 524 (*Two-page Supplement, May 21st*, 1909)
Air Compressor and Gas Engine, Reavell, 46
Angle Iron Bending Machine, Midgley and Sutcliffe, 120
Arc Lamp Lowering Gear, 144
Autoclave, The, 262

B

BARRAGE, Esneh, 79 (Correction, 146), (*Two-page Supplement, January 22nd*, 1909)
Bending Machines—*see* Machine Tools
Blasting, Submarine, Drill Boat for, 403
Boiler for Oil-fired Launch, Simpson, Strickland, 146
  Plates, Transmission of Heat through, 184, 207
  Corrosive Action of Magnesian on, 262
  Tube End and Plate Cleaner, The Quixo, Capt. F. S. Pett, 474
Bridge, Abya Choung, on the Pegu-Moulmein Railway, 578, 579
  Construction, New, 426
  Road and Railway, over the Wear, 588, 602, 608
  Sittang River, 578, 582, 630, 632, 634
  Stresses in a Suspension, L. H. Cnare, 469, 491, 518
Bulkheads, Water-tight, in Passenger Vessels, 207
Burner, The Méker. Cambridge Scientific Instrument Company, 640

C

CABLE Suspender, W. T. Glover, 482
Cableway at Grays, Henderson's, 168, 169
Calculator, Blast Furnace Charge, R. Marshall, 44
Canal, Panama, The Culebra Cut, 4 (*Supplement, January 1st*, 1909)
Casting, 20-Ton Winding Drum, 119
Cataract Dam, New South Wales (*Supplement, January 1st*, 1909)
Cement Plant at Southam Works, 8, 12, 28, 38
Chain-making Plant at Borsig's Works, 312
Chain Shackle, Keuter Weldless, 359
Charcoal Blast Furnace Practice in the Ural, Professor M. A. Pavloff, 493
Clamp, Plate-lifting, Mork Patent Palley Block Company, 223
Clutch, Murphy Friction, 117
Coach, Railway—*see* Railway
Coal Elevators, Evolution of the Rotary Feed in, Bennis, 564
Coal Store, Elevated Reinforced Concrete, in Montreal, 604
Coil Clutch in a Hoisting Drum, Coil Clutch Company, 250, 251
Colliery Electrical Power Plant, Brown, Boveri, 502, 508 (Correction, 611)
Concrete Coal Store, Elevated Reinforced, in Montreal, 604
  Coal Tip and Viaduct at Sharpness Docks, 60, 64
  and Corrosion, Specimen of Bolt, 628
  Jetty for Electric Crane, 276
Condenser at Southend Electricity Works, Ledward, 222, 419
Condenser, Weir's Marine Type Uniflux, 144
Conveyor Plant at Cologne Gasworks, 387, 396
Cooling Tower at a Colliery, 508
Coupling for Copper Pipes, Bryce's, 169
Crane, 100-Ton, Appleby's, 586
  30-Ton Electric Travelling Jib, Cowans, 276, 277
  150-Ton Floating, for Japan, Cowans, Sheldon, 374
  Large Steam Wharf, Chanlin, 606
  Locomotive Gantry Jib, Wilson, 44
  Monorail, Royce, 299
  Overhead Travelling, S. H. Heywood, 458
  30-Ton Steam Breakdown, Ransomes and Rapier, 118
Cranes and Hoists, Early Steam, 551; (Letter), 614
Cranes, Tower, and Transporters, Appleby's, 431

D

DAM, The Cataract, New South Wales (*Supplement, January 1st*, 1909)
Dock, Avonmouth, Royal Edward, 3 (*Supplement, January 1st*, 1909)
Dock, King's, at Swansea (*Supplement, January 1st*, 1909)
Docks, Sharpness, 60, 64
Docks of the World, Graving, N. G. Gedye, 442, 443, 467; (Note) 492
Dredger, Bucket, Fleming and Ferguson, 323
  Cayo Piedra, for Cuban Government, 612
  Sand Pump, Leviathan, 344, 352, 353
Drilling—*see* Machine Tools
Dust Removal from Card-rooms of Cotton Mills, 116
Dynamometer, Portable, Acer, 273
Dynamometer, Twist Drill, 309, 326

E

ELECTRIC Alternator, Combined, and Steam Engine, J. P. Hall and Robey, 200
  Barring Machine and Ignition Gear, 186
  Furnaces—*see* Furnace
  Induction Motor, Mavor and Coulson's "Spinner," 367
  Lighting and Pumping Sets, Allen's, 272
  Motor, 300 H.P. Armature and Frame for, Detroit River Tunnel, 183
  Motors, Attachment for Drilling, Kearns', 173
  Power Plant for Colliery, Brown, Boveri, 502, 508 (Correction, 611)
  Pumping Plant for Sewage at Milton, 188
  Traction, G.B. Surface Contact, 68, 85
  Tunnel Locomotive, 69
Electricity Works and Evaporative Condenser at Southend, 419, 422
Engine, Aëroplane, Gobron-Brillié, 315
  2½ Horse-power Air-cooled Paraffin, C. Price, 427
  Combined Paraffin Oil, and Dynamo, Reavell, 348
  Combined Steam, and Alternator, Robey and J. P. Hall, 200
  Eight-cylinder 50 Horse-power Air-cooled Aëroplane, Renault, 315
  Gas, Combined with Air Compressor, 46
  Gas, for Driving Accumulator Pumps, Siegener Maschinenbau A.G., 88, 92
  Pipe Aëroplane, 70 Horse-power, 316
  Steam, Eight-cylinder Compound Single-acting, New Lowca Engineering Company, 664
  Suction Gas, Fielding and Platt, 653
  and Superheater, Compound Semi-portable, Ruston, Proctor, 366, 370, 655
Engines, Gas-blowing, at Barrow Hematite Iron and Steel Company, 134, 135 (*Two-page Supplement, February 5th*, 1909)
  Gas, and Producer Plant at Winnipeg, Crossley, 656
  Internal Combustion, for Submarines, 378, 379
  Lampless Oil, Fielding and Platt, 653
  Small Paraffin, W. H. Allen, 272
  Twin-screw, for Marcia Garcia, 528, 536
Engineering at University of Toronto, 103, 112, 129
Evaporative Condenser at Southend, Ledward, 419, 422
Exhibition, Aëro and Motor Boat, 313, 336

F

FAN, Mine, Testing, 430
Files and Tool Steel, Machine for Testing, 349
Filtration and Purification of Water for Public Supply, J. Don, 95, 120
Fire Service, High-pressure, Pumping Station at Winnipeg, 656
Flanging—*see* Machine Tools
Flight of Birds, Lanchester, 198, 225

Patents, Selected American:
Atomising and Spraying Oily Materials, Method and Apparatus for, H. O. Brandt, 358
Barometric Condenser, A. H. Helander, 178
Blast Furnace, J. E. Johnson, 126
Blast Furnaces, Apparatus for Charging, &c., W. C. Mitchell, 206
Blasting Charges, Machine for Fixing, O. F. Malcolm, 358
Boilers, Stay-bolt for, J. Deneal, 256
Boilers, Steam, Construction of, A. W. Metcalfe and J. S. D. Shanks, 152
Breech-loading Ordnance, A. T. Dawson and G. T. Buckham, 674
Car Wheels, Manufacture of, C. E. Wollé, 646
Cement Clinker, Process of and Apparatus for Making, C. Ellis, 256
Centrifugal Fan and Pump, G. M. Capell, 306
Coke Oven, J. Armstrong, 516
Combustion Head for Hydro-carbon Engines, F. L. Nichols, 256
Compressor, Vacuum Pump, &c., F. J. Rochow, 622
Condenser, G. M. Newball, 230
Plant, R. D. Tomlinson, 596
Surface, J. F. M. Patitz, 570
Contact-maker, F. E. Kinsman, 256
Converting Liquid Hydro-carbons into Gas or Vapour, Method of and Apparatus for, E. B. Benham, 622
Cutter-chain, R. E. Noble, 646
Cylinder Relief and Drainage Device, F. C. Miller, 256
Dynamo-electric Machine, B. A. Behrend, 230
W. F. Dawson, 622
J. E. Noeggerath, 622
Dynamo-Electric Machines, Means for Starting, W. D. Pomeroy, 206
Ejector, F. S. Miller, 646
Electric Furnaces, Method of Operating, P. L. T. Héroult, 358
Electric Locomotives, Spring and Equaliser System for, W. E. Woodard, 542
Engine-starting Device, S. Dillon, 570
Engine Valve, J. Rothchild, 436
Exhaust Steam, System for Utilising, Y. Wadagaki, 332
Feed-water Purifier, J. Patten, 516
Fire-box, Sectional, F. W. Shupert and H. W. Jacobs, 464
Flue Dust in Blast Furnaces, Method of Precipitation and Prevention, R. W. H. Atcherson and W. Siddall, 332

Patents, Selected American (*continued*):
Forging Metal, Method and Apparatus, E. E. Stick, 410
Gas Engine, H. Söhnlein, 52
from Coal, Process of Manufacturing, B. Thiemich, 563)
Process of Manufacturing, W. H. Cove, 674
Process of Making, H. L. Doherty, 282
Turbine Engine, A. W. H. Griepe, 256
Gauge Glass Cock, R. M. Shad and G. N. Shad, 178
Generator, Alternating-current High-frequency, E. F. Alexanderson, 76
Grain Cleaner, Centrifugal, F. Müller, 436
Gun-carriage, N. Koch, 282
Guns, Recoil, Pneumatic Recuperator for, N. Koch, 26
Hopper Dredgers and Barges, Discharge Door of, F. Lobnitz, 52
Hydrocarbons, Process of Obtaining Power from, P. D. Johnson, 52
Hydro-Extractors, H. Diamanti and N. Beuf, 26
Insulating High Voltage Transmission Lines, W. T. Goddard, 282
Internal Combustion Engine, C. W. Weiss, 178
Jet Condenser, W. B. Potter, 282
Ladle, Blast Furnace Slag, J. H. Dewhurst, 52
Lever Mechanism for Throttle Valves, J. F. Murphy, 126
Liquid Air, Art or Process of Producing, J. F. Place, 516
Locomotive, Articulated, S. M. Vauclain, 490
Mechanical Production of High Vacuums, J. Zeitlin, 100
Motor, A. E. Guy, 206
Muffler Cut-out Mechanism, L. S. Chadwick, 674
Pig Iron and Steel, Process of Melting, H. A. Evans, 306
Pneumatic Apparatus for Discharging Furnaces, S. F. Hitt, 464
Pneumatic Tools, Water-spraying Device for, A. H. Taylor, 52
Power-generating System, E. Rosenberg and E. W. Mix, 76
Press for Manufacture of Hollow Ingots, H. Harmet, 646
Printing Plates, Metallic, Method of Making, J. O. de Wolf, 26
Projectile, Capped, A. J. Soden, 570
Pumps, Liquid Packing for, J. V. O. Palm, 306
Refrigerating Plants, Regulating Device for, O. Levilly, 52
Riveting Machine, G. Ermel, 306
Rock Drill, C. Jackson, 464
Sand-papering Hand Plane, C. Delsee, 464
Sea Wall, Breakwater and Similar Structure, W. Smith, 52
Sectional Gear, R. E. Porter, 358
Sheet Metal Pulley, J. E. Zimmermann, 178
Silicon, Method of Producing, H. N. Potter, 152
Silicon, Production of, G. O. Seward, 436
Spark Plug, F. Bartl, 542
Steam Separator and Heater, G. R. Sisterson, 516
Subaqueous Rock-breaker, B. H. Coffey, 596
Superheater Boiler, J. E. Bell, 206
Tubes, Manufacture of, O. Briede, 358
Turbine, H. F. Fullagar, 622
C. Semale, 596
Elastic Fluid, C. G. Curtis, 490, 622
Elastic Fluid, B. Ljungström, 126
Turbines, Steam, Apparatus for Governing, H. F. Fullagar, 332
Turbines, Steam, Condensing Apparatus for, G. Huguenin, 100
Vacuum Pump, C. L. Heiser, 230
Valve, Balanced Proportioning, for Explosive Engines, W. A. Reeves and E. R. Reeves, 152
Gear, H. Sanderson, 410
Motion for Gas Motors, G. Mees, 646
Vehicle for Receiving a Portable Gun, M. Dreger, 256
Waste Water Straining Device, O. Schumann, 410
Wrench, E. Reynolds, 464

Patent Specifications, British:
Batteries and Accumulators, 410
Condensers and Feed-water Heaters, 383
Cranes and Conveyors, 76, 100, 282, 306 331, 410
Dynamos and Motors, 25, 51, 75, 125, 151, 177, 205, 229, 255, 305, 357, 384, 435, 463, 464, 490, 515, 541, 570, 595, 645, 673
Gas Producers, 51, 151, 178, 206, 331, 409
Internal Combustion Engines, 256, 281, 331, 383, 489, 515, 541, 570, 595, 621, 645, 673

British Navy:

Battleships and Floating Docks, 319
Bellerophon, H.M. Battleship (*Supplement, January 1st*, 1909)
Cossack, H.M. Torpedo-boat Destroyer, Speed Trials, Sir P. Watts, 390
Dreadnoughts, 321
Indefatigable, H.M. Cruiser, 224
Indomitable, H.M. Armoured Cruiser (*Supplement, January 1st*, 1909)
Superb, H.M. Battleship, 224, 453
Swift, H.M. Torpedo Boat Destroyer, 222, 223
Vanguard, H.M. First-class Battleship, 218, 224, 342 (*Two-page Supplement, April 2nd*, 1909)
Warships, Recent Trials, 453

Naval Matters:

Admiralty Warship Return, 559
Battleships and Docking Accommodation, 529
Battleships, Primary Armament of, 193
Engineers in the Royal Navy, 296; (Letters), 351, 482
Engineers in the United States Navy, Pay of Junior, 478
French Marine, The Crisis in the, 493
Germany, Naval Docks in, 451
Naval Architects, Scientific Education of, Professor J. J. Welch, 220, 224
Navy Estimates, 295, 300
Offensive Powers of the Fleets of 1911, 104; (Letter), 187
Shooting in the Navy, 143
Speed Trials of the Deutschland Class, 411
Submarine Mine Layers, 346
Warships, New Types, 423
Warships, Types Omitted in Recent Programmes, Lord Brassey, 337, 345

Foreign Navies:

Argentine Gunboat Parana, 665
Austro-Hungarian Submarines, 43
Brazilian Battleship Minas Geraes (*Supplement, January 1st*, 1909)
  Battleship Sao Paulo, 430
  Scout Bahia Launched, 82
  Scout Rio Grande Do Sul, 420
Deutschland Class, Speed Trials of, 411
French Dreadnoughts, 438
  Naval Programme, 636
  Submarine Salvage Boat Vulcain, 598
German Cruisers Hamburg and Lubeck, 77
Russian Armoured Cruiser Rurik (*Supplement, January 1st*, 1909)
South American Navies, Status of, 90
Spanish Navy Contracts, 132
United States Naval Ordnance, 29
  Scout Cruiser Salem, Turbine Repairs, 616
  Steamship Chester, Operation of Parsons Turbine, Lieut. A. F. Yates, 669

Mercantile and Miscellaneous Vessels:

American Salvage and Repair Steamer Favourite, 136
Axholme, Stern Wheel Steamer, 616
Ben-my-Chree and Parsons Turbine, 364
Canadian Atlantic Passenger Trade, 451
Clyde Shipbuilding, 448
Craster Hall, Longitudinally Framed Ship, 234, 242; (Letter), 417 (*Two-page Supplement, March 5th*, 1909)
Defender I., Motor Racing Boat, Mandslay Company, 336
Drill Boat for Submarine Blasting, 403
Harland and Wolff's Ships, Typical Vessels Built at Belfast, 626 (*Four-page Supplement, June 18th*, 1909)
Irada, Wreck, 40
Launches, Oil-fired, Simpson, Strickland, 146, (Note) 174
Laurentic, White Star Triple-screw Steamer, 426, 451

Mercantile and Miscellaneous Vessels (*continued*):

London and North-Western Passenger Steamship Rathmore, 55 (*Two Two-page Supplements, January 15th*, 1909)
Lusitania and Mauretania, Propeller Changes, 65
Mauretania, 65, 245
Motor Boats at Olympia, 316, 336
Orient Liners, The New, 545, 556
Orsova, Orient Liner, J. Brown and Co., 545, 556
Paso de Martin Garcia, Twin-screw Shallow-draught Steamer, for South America, Thornycroft, 528, 536
Pioneer, 40ft. Gas-driven Cabin Cruiser, MacLaren, 376
Rorqual, Screw Trawler, Eltringham, 298
Shallow-draught Steamers for the Amazon, Thornycroft, 528, 536

Shipbuilding Notes:

American Shipbuilding, Improved Trade, 613
British Corporation, New Register and Building Rules, 316
Broomhill, Steam Collier, Trials, 613
Bruhn, Dr. J., New Appointment, 632
Cargo Vessels with Topside Tank, The Fiona, 298
Clyde Yards' New Work, 613
Coaling Lighter, New Type, 500
Conrad Moar, Petroleum, Carrying Vessel for Bergen, Launched at Middlesbrough, 427
Co-partnership, Sir C. Furness's Scheme, 394
Craggs and Sons, Affairs of, 500
Craster Hall Launched, 278
Danubian, Petroleum Carrying Steamer, 394
Death of Sir Donald Currie, 428
Dr. Elgar Succeeded by Mr. A. Gracie as Chairman of the Fairfield Company, 298
Duke of Argyle, Turbine Channel Steamer Launched by Denny Brothers, 560
Duke of Cumberland Launched from Denny's Shipyard at Leven, 316
Fairfield Company's Unbroken Record in Shipbuilding, 613
Furness, Sir Christopher, Freeman of Hartlepool, 474
Golden Eagle and the Kingfisher, Thames to Boulogne Service, 447, 632
Great Lake Shipbuilding Industry, Prosperous Trade, 474

Acetylene Lamps as Compared with Candles, Advantage in Light, Health and Cost, 111
Admiralty Tenders, House of Commons Questions, 581
Adrianople's Bad Roads and One Motor Car, 633
Aërial Navigation Company in France, 63
Experiments in Germany, 421
and the War-office, 421
Pleasure Yacht Ordered in Berlin, 369
Traffic in Germany; Scheme for Stations and Service, 241
Aëro Biplane in United States, 343
Club Flying Ground at Sheppey, 240
Exhibition—*see* Exhibitions
Aëronautical Society's Experiments with Flapping Wings, 267
Aëroplane and Balloon Trials on Salisbury Plain, 163
British Army, 69, 241
Experiments by Naval Submarine Staff at Portsmouth, 293
Flight without Rails for Starting, Wilbur Wright, 449
Instruction, School of Aviation in France, 37
Race at Monaco, 37
Tests, Views in the United States, 395
Airbag Equipment and Steel Funt for Royal Engineers' Experiments, 293
Airship, German, Zeppelin I., Successful Trial Trips, 267
New Rigid Type in Germany, 607
for the Wellman Polar Expedition, 267
Airships and Explosives, Hudson Maxim on, 369
Alkali Manufacture, Electrolytic Process, 267
Alloy, Copper-Aluminium, Advantages, 395
Alloys, Aluminium and Magnesium, Valuable Properties of, 217
Aluminium for Bus Bars and Back Connections in Switchboards, 241
Coinage, Experiments at French Mint, 633
Conductors for Overhead Lines, Superior to Copper, 137
Amalgamated Society of Engineers, Unemployment Statistics, 191
American Cement Works, Increased Output, 241
Annealing, Micanneal Packing, Laurentide Company, 96
Annealing by New Method, American Experiments, 527
Anthracite Production, Heavy Output, 475
Antimony, Crude and Ore, Export to Changsha, 581
Armoured Automobiles in War, 293
Asbestos Goods Manufacture in India, 293

Associations, Institutions, & Societies:

Association, British Foundrymen's:
Annual Meeting and Programme, 620
Association, Engineering and Scientific, of Ireland:
Effect of Strain on the Strength of Ductile Materials, Dr. Lilly, 59
Association of Engineers-in-Charge:
Battersea Polytechnic, Visit, 176
Feed Water and its Impurities, J. Kershaw, 176
Association of Engineers, Manchester:
Metallic Filament Lamps, Barnes, 63
Visit to Alfred Herbert's Coventry Works, Further Programme, 509
Association of Engineers and Shipbuilders in Greenock:
Electricity in Modern Industry, J. A. Robertson, 240
Association, Engineers' Standardised Publications, 311
Association, Glasgow and West of Scotland Foremen Engineers':
Annual Dinner, 304
Locomotive, The Steam, Blacklock, 177
Tools, Proper Shape and Cutting Speed, Prize Award, 304
Association, Incorporated, of Municipal and County Engineers:
Concrete, Its Aggregates and Mixing, W. Challoner, 288
Destructor, Design and Working of a Modern, W. F. Loveday, 288
Meetings, Programmes of Papers and Visits, 488, 629
Association, Incorporated Municipal Electrical:
Annual Convention and Programme, 434, 538
Association, International, for Testing Materials:
Meeting, Programme, 119
Association, Leeds Geological:
Applications for Geology to Public Works Construction, Dr. H. Lapworth, 351
Association of Mechanical Engineers, Birmingham:
Annual Dinner, 199
Metallography of Steel, O. F. Hudson, 351
Nurnberg Gas Engine, R. Bechtel, 132
Visit to Great Western Works, Swindon, 606
Association of Water Engineers:
Annual Meeting, Programme and List of Papers, 538
Institute of Chemistry:
Annual Meeting, 250
Pass List, 432
Institute, Concrete:
Concrete in Arched Bridge Construction, E. P. Wells, 328
Meetings, 96, 328
Reinforced Concrete, Certain Aspects of, Serrailier, 96
Setting of Portland Cement and Methods of Regulating the same, H. K. G. Bamber, 620

Associations, Institutions, & Societies (*continued*):

Institute, Iron and Steel:
Annual Meeting and Programme, 403
Autumn Meeting Arrangements, 420
"Bennett Brough" Memorial Fund, 537
President Declines Office; Sir Hugh Bell Re-elected, 420
Institute of Marine Engineers:
Efficient Circulation of Water in Steam Boilers, A. Ross, 266
Meeting and Elections, 325
New Zealand's Presentation and Letter to Secretary, 266
Scholarship Founded by Lloyd's Register, 394
Some Details of a Cargo Steamer, W. Veysey Lang, 351
Visit to Trinity House, 667
Institute, Midland, of Mining, Civil, and Mechanical Engineers:
Visit to Butterley Company's Collieries, 492
Institute, North of England, of Mining and Mechanical Engineers:
Meetings and Programme, 159, 350
Institute, Royal Sanitary:
Henry Saxon Snell Prize, 228
Meeting and Discussion, 462
Visits and Meeting in Sheffield, 174
Institute of Sanitary Engineers:
Roads, Past and Present, E. J. Harber, 132
Institution of Automobile Engineers, Graduates' Section:
Horse-power and its Estimation, C. E. G. House, 151
Institution of Civil Engineers:
Dinner, 330
James Forrest Lecture, Road Motors, Colonel Holden, 306
London Students:
Annual Dinner, 474
Students' Meetings, 22, 62, 152, 266, 328, 381, 448
Chemical Engineering, Some Aspects of, C. J. Guttmann, 328
Development of Hydro-electric Power Schemes with Special Reference to Kinlocheven, J. M. S. Cuthbertson, 448
Experiments on a Diesel Engine, W. E. Fisher and E. B. Wood, 152
Portland Cement, The Effect of Fineness with Aëration on its Strength, K. W. S. Mitchell, 62
Reinforced Concrete on Railways, W. Gurney, 381
Slips in Railway Earthworks, E. G. Lovegrove, 266
Turbines, High-power Water, on Moderate Falls, R. Woldenden, 22
Glasgow Association of Students:
Annual Dinner, 275
Arbroath Waterworks, J. M. Hogg, 24
Design of Bridges with Reference to Æsthetic Treatment, R. Boyle, 107
Leeds Section:
Standardisation in Engineering Practice, Dr. Unwin, 240
Manchester Association of Students:
Annual Dinner, 273
Newcastle upon-Tyne Association of Students:
Design and Construction of Docks, Sir Whateley Eliot, 199, 304
Reinforced Concrete, H. W. Taylor, 325
Visits to Stakeford Bridge and Blyth Harbour Works, 655
Visit to Quayside Extension Works at Ouseburn, 523
Yorkshire Association of Students:
Pumping Station Extension for Widnes, W. M. Carr, 196
Standardisation in Engineering Practice, Dr. Unwin, 302
Weg Portable Breathing Apparatus, W. D. Lloyd, 48
Institution of Electrical Engineers:
Dielectric Strength of Compressed Air, E. A. Watson, 293
Glasgow Section:
Greenock Refuse Destructor, Working Results, J. A. Robertson, 449
Leeds Local Section:
Annual Meeting and Elections, 434
Electrification of Steam-driven, Non-Reversing Rolling Mills, W. F. Mylan, 434
G.B. Surface Contact System, Stanley Clegg, 59
Institution of Engineers and Shipbuilders in Scotland:
Library and Reading-room, 35
Summer Meeting, Joint Institutions' Programme, 536
Watt Anniversary Dinner, 107
Institution, Incorporated, of Automobile Engineers:
Lecture, F. W. Lanchester, 489
Petrol Engine Design, J. A. Dorling, 266
Programme of Papers, 199
Coventry Graduate Section:
Flight, Progress of, J. A. Mackie, 96
The Motor Cab: Its Development and Design, L. J. Shorter, 351
London Branch, Graduates' Section:
Change-speed Gear, F. Thomas, 249; Prize Award, 620
Cooling, H. Burchall, 489
Institution, Junior, of Engineers:
Coin-freed Mechanisms as Applied to Gas Meters, Construction of, T. S. F. Gibson, 594
Dielectrics, The Use of, and the Principal Tests applied to them, T. Germann and S. M. Hills, 377
Dinner, 483
Distributing Systems for the Supply of Electricity, C. H. Smith, 512
Heat Transmission in Buildings, Kenneth Gray, 266
Heat Transmission in Steam Boilers, Dr. Nicolson, 146

Associations, Institutions, & Societies (*continued*):

Heating and Ventilation, J. Jeffreys, 266
Motor Omnibuses, Eric Boult, 34
Visit to Chingford Reservoir Works, 417
City and Guilds Technical College, 146
J. E. Hall's Refrigerating Works, 289
London, Brighton, and South Coast Electric Plant at Battersea, &c., 449
s.s. Otaki, 516
Rugby Gasworks and British Thomson-Houston Works, 538
Institution of Mechanical Engineers:
Bryan Donkin Fund, 176
General Meeting and Dinner, 383, 456
Summer Meeting and Programme, 383
Water, Filtration and Purification, for Public Supply, J. Don, 35
Graduates' Association:
Mechanical Draught for Steam Boilers, L. J. J. Murfin, 381
Meeting and Elections, 537
Motor Car Construction and Design, Roy Vining, 62
Producer Gas, G. H. Cruse, 280
Railway Permanent Way, H. H. Bird, 537
Institution of Mining Engineers:
General Meeting, Programme of Papers and Visits, 483
Institution of Mining Electrical Engineers:
Meeting, 667
Institution of Mining and Metallurgy:
Annual Dinner, 417, 483
Institution of Naval Architects:
Annual Meeting and Dinner, 107
Medal and Prize Offered, 107
Institution, North-East Coast, of Engineers and Shipbuilders:
Fatigue of Copper Pipes, J. M. Allan, 196, 289
General Meeting, 434
Scientific Education of Naval Architects, Professor J. J. Welch, 196, 289, 434
Steam Turbines for Propulsion of Vessels at Moderate Speed, Y. Wadagaki, 434, 526
Steel Water-tight Bulkheads, Strength of, A. J. Murray, 289, 434, 526
Summer Meeting, Joint Institutions' Programme, 526, 536
Institution, Royal:
Aërial Flight in Theory and Practice, Professor G. H. Bryan, 297
Annual Meeting and Elections, 474
Astronomical Research, Recent Results of, A. S. Eddington, 297
Electrical Striations, Professor Sir J. J. Thomson, 297
General Meetings and Elections, 382, 620
Meetings, Benefaction of £10,000, 143, 240, 620
Programmes of Lectures, 76, 339, 462
Society, Aëronautical, of Great Britain:
Aëronautical Engines, Some Points in, A. J. McKinney, 325
Low Power *versus* High Power Machines, José Weiss, 325
Society, American, of Mechanical Engineers:
Convention and Programme, 377
Society of Arts, Royal:
Aërial Flight: Cantor Lectures, F. W. Lanchester, 434
Albert Medal Awarded to Sir A. Noble, 661
Awards for Papers, 658
Modern Methods of Artificial Illumination, Leon Gaster, 132, 241
Society of Arts, Royal Scottish:
Keith Lectures, Gas Manufacture and Lighting, H. O'Connor, 136, 187, 216
Society of Chemical Industry—Birmingham and Midland Section:
Coal, Spontaneous Combustion of, Professor R. Threlfall, 381
Society, Crystal Palace Old Students, 33
Society of Edinburgh, Royal:
Systematic Motion of the Stars, Professor Dyson, 240
Society of Engineers:
Awards, Presidential Address, 151
Concrete, New Test for, Dr. J. S. Owens, 266
Corrosion of Steel Reinforcement in Concrete, E. R. Mathews, 368
Influence of Rainfall on the Design of Sewers, C. A. Battiscombe, 420
Status Prize Offered, Conditions, 292
Status Prize Offered, Receipt of Papers, 655
"Transactions," Two Forms of Publication, 629
Visit to Erith Works of Vickers, Sons and Maxim, 536
Visit to London Hydraulic Power Company's Station, 629
Society of Engineers and Metallurgists, Sheffield:
Dinner, 248
Society, Faraday:
Programme of Papers, 304
Society, Illuminating Engineering:
Formation, Sight as a Desirable Object of Investigation, 659
Society, Liverpool Engineering:
Annual Dinner, 96
Society, Physical, of London:
Annual Meeting and Presidential Address, 171
Meetings and Programmes, 209, 276, 328, 366, 618
Papers by Professors Croker and S. Thompson, 209
Society of Public Analysts:
Analysis of the Air of Mines, W. J. A. Butterfield, 512
Society, Royal Agricultural:
Notice to Exhibitors, 305
Society, Royal Meteorological:
Aims and Efforts of the Society, Dr. H. R. Mill, 125

Associations, Institutions, & Societies (*continued*):

Annual Meeting, 125
Anti-cyclone Belt of the Northern Hemisphere, Colonel H. E. Rawson, 538
Errors of Estimation in Thermometric Observations, A. Walter, 538
Meteorological Conditions in the Philippine Islands, 1908, Rev. José Algué, 420
Percolation, Evaporation, and Condensation, Baldwin Latham, 420
Temperature in Antarctic and Sub-antarctic Regions, R. C. Mossman, 655
ATOMIC Weights, International Committee's Report, 317
Automobiles for Drawing Austrian Balloon Trains, 111
Automobilism, Royal Automobile Club's Report, 22

B

BACTERIOLOGICAL Incubators Heated by Electricity, 607
Ball Bearings for Fans Preferable to White Metal, 37
Balloon Ascents at Constantinople, 395
Trains Drawn by Automobiles in Austria, 111
Military Dirigible, Trials, 474, 501
Self-registering, Remarkable Ascent by, 581
United States Army, Explosion during Flight, 555
Ballooning in Munich, "Academy of Aviation," 581
Balloons, Tests with 18-Pounder Shell Firing, 343
Basic Converter Blowing, Metallurgical Investigations, 63
Bessemer, Henry, and Company, Meeting, 204
Birmingham Gasworks, Modified Report, 618
Birmingham Telephones, New Exchange, 620
Blast Furnaces in the Longwy District, France, Restricted Operation, 475
Blast Iron Furnace Operations, Uses of, Gayley Process, 293
Board of Trade Engineer Surveyor-in-Chief, Retirement and Presentation, 111
Boby's Water Softener, 489

Boilers:

Autogenous Welding for Marine Boiler Repair, 607
Board of Trade Report on Explosions, 501
Boiler Explosion Caused by Ill-fitting Door, 395
Explosions Preventable, Manchester Steam Users' Association Report, 527
Explosions in the United States, 317, 596
Testing, Admiralty Regulations, 37
Water, Scale Prevention in, 111
Charcoal Iron Lap-welded Tubes, British Standard Specification, 566
Water Softening for Boilers in American Plant, Highly Favourable Results, 449

BORING Square Holes, Interesting Device, 87

Bridges:

Bridges, East Indian Railway, 111
Brooklyn Bridge, Operating Costs, 475
Earthquake Damages, 293
Pieman River Latticed Truss, Tasmania, 293
Quebec Bridge Re-building, Probable Increase in Height, 63; Time Required, Further Details, 501
Quebec Bridge, Negotiations for Wreck Removal and Reconstruction, 601
Southwark Widening, Details and Cost, 449
Strauss Trunnion Bascule, over Chicago River, 63
Warrington, Recreation, Tenders Invited, 449
BRIQUETTE Making, Professor Galloway on, 607
British Metal and Machinery Exports, 607
Building Tower, 47 Stories High, in U.S.A., 11
Burntisland and Foreign Manufacturers, 62

C

CALCIUM Carbide, Relative Efficiency of Arc and Resistance Furnace for Manufacture, S. R. Tucker, 607
Canal Accident in Belgium, 607
Improvement in Sweden, 581
Suez, Traffic Statistics, 633
from Tuxpam to Tampico, Mexico, 581
Ceiling Fan Blades, Efficiency Experiments, 633
Cement Demand in China, 267
Charcoal Iron Lap-welded Boiler Tubes, British Standard Specification Report, 566
Charcoal (Wood Distillation), Plant in the Nilgiri Hills, 354
Chemical Industries of Madras, Committee of Inquiry, 555
Chemicals in Solution Tanks of Water-softening Plant Stirred by Power from Pelton Wheel, 527
Chicago, Commercial Report, Output of Copper, 658
China, Electric Lighting Plant and Telegraph, 449
Climatic Changes in Egypt, 555
Cloud Effects in Regard to Illumination, 63
Clouds, Height of, Observed by Searchlights, 581

Coal, Collieries, and Coke:

Ashes to Replace Pillars in Coal Mines, 11
Brown Coal in Victoria, Utilisation of, Wykeham Bayly, 11
Coal Conciliation Board, Meeting, Wages Question, 216
Consumption of, Great Britain, 241

Coal, Collieries and Coke (*continued*):
Coal Discovery at Powlett River, Victoria, 191
Exports from Great Britain in 1908, 421
Fields of Heraclea, Black Sea, 217
in Austria, Government Monopoly Proposed, 137
in the United States, Rescue Stations for, 137
Finding in Cylla Valley, 629
in India, 317
Mine Testing Station for France, 668
and other Mineral Outputs in Great Britain, Statistics, 293
Mines in United Kingdom, Government Inspection, 527
Mining by Lime Cartridges, 343
for the Navy, 343
instead of Oil for Torpedo Boats, 136
Shaft in France, Deepest in the World, 395
Supply in England, Future, Sir W. Ramsay on, 111
Production in the United States, 217
Coke for Locomotive Fuel, 111
Coke, Red-hot, Experiments in Water Absorption, 137
Colliery and Mining Society to be Formed as a Result of Use of Electricity in Mines, 421
Explosives in Coal Mines, Home-office Order, 449
Fire-damp Detection, New Invention, 501
Inter-State Transportation of Coal in the United States, 527
Midland Colliery Managers and the Eight Hours Act, 275
Naval Ships and Fife Coal, 162
New Zealand Collieries Haulage System, 163
Panama Railway as Coal Importer, 449
Yorkshire Trade, 96
COAL Tar Product for Insulating Purposes, 501
Coast Erosion, Royal Commission, 317
College, East London, Lectures on Electrification of Main Lines, L. Murphy, 569; G.B. System of Electric Tramways, Professor J. T. Morris, 569
College, Merchant Venturers' Technical, Bristol, 330
College of Science, Imperial, Appointments and Honours, 317; Mine Purchase for Survey Study, 317
Combustible Mineral Production in France, 241
Comet and "Moving Pictures," 343
Compressed Air, Dielectric Strength of, 293
Concrete:
Armoured, Use in United States, 601
Beams, Test of Three Large Reinforced, 421
Boats for Italy, 475
Building, General Post-office Extension, 37
Buildings for Toronto, 343
Caissons, Reinforced, for Railway Bridge in Holland, 421
Construction, Reinforced, Lectures, C. F. Marsh, 75
Reinforced, Lining for American Railway Tunnel, 369
Telegraph Poles, Use Extended by Pennsylvania Railroad, 293
COOLING Tower Tests, 527
Cooling Water for Mineral Water Production, New Method, 369
Copper in Alaska, 293
Copper Discoveries in Sikkim, 343
Corsica's Trade in Machinery, Slight Increase, 659
Crank Shafts Deformation, Experiments and Calculations, 501
Creosote Treatment of Cheap Woods, 111
Crompton and Company, Christmas Treat, 48
Crystal Palace School of Engineering, Awards, 348, 393
Crystal Palace, Old Students' Society, Conversazione, 508
Cupolas, Foreign, Dimensions, 87

D

DAIMLER Engine Trials, 489
Dakar, New Port on West African Coast, 658
Devonport Dockyard, Unemployment Question, 633
Diamond Drill Holes, Method of Ascertaining Deviation from the Straight, 421
Dock at Jarrow, Admiralty Subsidy to Tyne Authorities Suggested, 607
at Marseilles, Projected New, 87
Steel Floating, for Norway, 667
Docks, Clyde Graving, 172
on the East Coast, Questions in Parliament, 475
Donkin, Bryan, Fund, 176
Dredge, Worked by Gasoline Engine, 317
Dredger, Gas-operated, for Drainage Canal Work in Iowa, 137
Dredger, United States Clatsop, 17,000 Miles Voyage, 25
Dredgers, Various, for Foreign Ports, Simons, 667
Dredging of Baltimore Channel, 633

E

EAR Protectors for the Navy, 187
Earthquake Resisted by Concrete, 482
Edinburgh and Engineering, 146
Electrical Matters:
Accident, Alternating-current Motor Explosion, 267
Arc Lamp Carbons, Suggested Remedy for Flickering, 37
Battery for Rolling Mill, Large, 87
Direct-current Machines, Determination of Efficiency, 37
Electrical Energy in Buildings, Mr. J. Swinburne's Report to Home Department, 87
Engineering Products, Decline in Exports from Germany, 369
Engineering Trade Combination in Capetown, 217
Equipment in Japanese Mines, 449
Furnace, New Type, 63
Industry Syndicate for Turkey, 369

Electrical Matters (*continued*):
Electrical Lighting Statistics, a Growing Industry, 449
Manufacturers' Association, National, Meeting, 408
Power for Spain, Chiefly Made in Germany, 580
Smelting in Sweden, 421
Sounding Apparatus, Schortan Type, 11
Standardising, Testing, and Training Institution, Faraday Scholarship, 328
Storage Battery for Manchester, Largest in Great Britain, 501
Supply Companies in North of England, Projected Linking-up, 87
Trades Benevolent Institution, Dinner, 273
Electro-metallurgy, Belgian Report, 191
Electro-technical Commission, International, 254
Energy Consumption with Various Air Brakes, Results, 137
Farnham Electric Lighting by Overhead Wires, Powers Refused, 217
Frequency of Alternating Currents, Method of Measuring, 369
Generator, High-speed Electric, 395
Giffie Electrical Furnace, 475
Hemp Core instead of Wire for Swedish Transmission Line, 163
High Generator Voltage in Austria-Hungary, 217
Hydro-electric Power Station in Michigan, 87
Hydro-electric Station in Spain, 110, 163
Induction Motors, Devices for Improvement of Starting Conditions, 267
Induction Motors, Slip and Speed Measurements, 191
Insulation of Transformer Oil, 293
Insulator Defects Due to Annealing, 527
Insulators, High Tension, Method of Testing, 267
Japan, Electrical Machinery for, Competition to Supply, 581
Metallic Filament Lamps and the South Metropolitan Electric Company, 217
Motor, Large, at German Ironworks, 63
Motor, 6000 Horse-power, Largest in the World, 37
Nitric Acid Manufacture by Electric Power, 87
Oil Separator at Power Station of Chicago Elevated Railway, 217
Peat or Coal for Electricity Production, 267
Power Stations, Parallel Operations of, 267
Rotary Converter, Direct Current Voltage, 217
Russian Electrical Prospects, 72
South Wales Electrical Supply, Transfer of Authority, 581
Squirrel-cage Induction Motors, 501
Transformer to Replace Present System o Batteries for Door Bells, &c., 633
Transformers, Star or Delta Connections, 191
Transmission Line, Niagara-Syracuse-Auburn, Largest Existing, 607
Transmission Line Operating at 500,000 Volts, 527
Transmission Wires, Chart for Calculating, 369
Turbo-Generating Set, Exhaust Steam, for Darlington, Comparison of Cost, 449
ENGINEERS' Standardised Publications Association, 311
Exhibition, Aëronautical, at Frankfort-on-Maine, 343, 475
Aëroplane, at Olympia, 11, 238
Agricultural Machinery, at Omsk, 311
Building, Permanent, for Manchester, 26, 176
Electrical, Proposed at Brescia, 11
Imperial International, 1909, 254, 432
Railway, at Buenos Aires, 217, 350
Winnipeg Industrial, Steam Engines Class, 150
Explosion, Naval; Lubricating Oil Precautions, 61
Explosive, Discovery of New Powerful, at Woolwich, 395
Explosives, Abel Heat Test for, Home-office Committee Appointed, 449
in Coal Mines, Prohibition by Home-office, 449
Safe Destruction of, 11
Eye Affections Caused by Herzian Waves, 444

F

FACTORY Department of Home-office to be Transferred to Board of Trade, 137
Factory Regulation of Metal Coating and Glass Enamelling, 137
Ferro-silicon, Board of Trade Notice, 330
Ferro-tungsten, Powdered for High-speed Steels, 581
Files, Admiralty Requirements, 527
Finland, Ironfields Discovered, 343
Fireboat for Spezia, Merryweather, 568
Fireclay Discovery in Queensland, 659
Firedamp Detection, New Invention, 501
Firedamp Detector, 143
Flanging Bilge Plates and Joining Lead Pipes, New Method, 267
Fleet-street, Lighting with High-pressure Gas, 11
Forgings of British Manufacture for British Warships, 293
Frankfurt Aëronautical Exhibition, 343, 475
Fuel, Artificial, Factory in France with British Capital, 633
Gas Analysers, Investigation, 191
Purchased on Heat Value in United States, 555
Testing Plant at Ottawa, 475
Fuels, Low-grade, for Producer Gas Manufacture, 163

G

GALVANOMETER, Moving Coil, Advantages of, 267
Gas, Coal, Production in the United States, 111
or Electric Lighting: Effect of New Methods on Human Eyesight, 421
Engineers at Bamford, 568
Engines Replace Windmills in Holland, 137
Escapes in Mines Caused by Earthquakes, 217
Ignition by Electric Wire, 137
Lighting of Maldon, Improvements Reduce Cost, 217
Manufacture and Lighting, Keith Lectures by H. O'Connor, 136, 187, 216
and Oil Engines in Japan, 395
Output and Cost in United Kingdom, 217
or Steam Engines, Comparison as to Reliability, 658
Supply Line between Suction Producer and Engine, Insertion of Check Valve, 37
Tests of Heating Values, 395
Thermometer at Washington, Five Years' Progress of Construction, 37
Geometry for Schools, 369
Georgian Bay Ship Canal Projected, 421
German Rolled Iron Sections for Structural Purposes; *Stahl und Eisen* on the Engineering Standards Committee, 421
Germany, Strike Statistics, 63
Glasgow University, Honorary Degrees Conferred, 644
Glasgow and West of Scotland Technical College, Retirement of Professor A. H. Sexton, 229
Glass Chimneys, Heat-resisting, for Coal Miners' Lamps, 163
Gold Dredging Successful in Klondike, 37
Gold Output from Gold Coast, 659
Graphite, World's Output, 267
Greenwich Royal Observatory, Annual Visitation, 607
Gun-cotton, History of Manufacture, 317
Gunnery and Torpedo Instruction for Senior Officers, 404
Gunnery and Torpedo Practice, Instruction, 143
Guns and Gun-sights in Royal Naval Vessels, 343
Fourteen-inch, for United States Navy, 11
in the French Army, Parliamentary Discussion, 11
Sjogren's Automatic Shot, Danish Patent, to be Manufactured in England, 217
Gyroscopic Action of Fly-wheels, Some Fallacies, 632

H

HADFIELD'S Steel Foundry, Annual Meeting, 357
Hardening Powders, Recipe, 217
Heat, Method for Determination of Mechanical Equivalent, 343
Heat Transfer, Varying Theories, 11
Heating Apparatus, German Method of Immersing in Case of Oil-cooled Transformers, 317
Hot-water from Jackets of Gas Engine, 659
Hot-water, Turbo Accelerator for, Hadens, 36
Hematite Ore Discoveries in North-West England, 163
Hogge's Cannons, 475
Hot-air Boot Drier, Foster and Ludlow, 380
Hot Bearings, Alarm for, 538
Hot-water Service in Public Institutions, 395; (Letter), 429
Hydraulic Cement, Water-resisting Properties, 369
Hydro-electric Plant at Vermon, U.S.A., 24
Hydrography, Admiralty Report, 555

I

ILLUMINANTS for Rooms and Streets, Quantity Required and Cost, 555
Illumination of Rooms and Light-coloured Walls, 369
Incandescent Mantle Ash as Commercial Asset, 163
Indian Temperature, Great Diurnal Variation, 369
Industrial Poisoning and Accidents Return, 395
Industrial Sites, Great Western Railway Register, 381
International Electrotechnical Commission, "Transactions" Published, 536
Iron and Steel:
Annealing, Micanneal Packing, 96
Brightside Foundry, Sheffield, Staff Dinner, 59
Furnaces, Stassano, Replace Crucibles for Steel Manufacture at Bonn, 163
